🏠 / WALLET / KEEVO WALLET REVIEW: IS IT THE SAFEST HARDWARE WALLET?

Keevo Wallet Review: Is it the Safest Hardware Wallet?

January 20, 2022 / Wallet

Let me begin by asking one question: Does losing the seed phrase of hardware wallets scare you? We all know that hardware wallets are safer than software wallets. But as a beginner, it is tough to find the right crypto hardware wallet. The essential criterion for successfully using hardware wallets is safely keeping the “seed phrase”. Now, this is something that scares me. What if I lose the seed phrase?

Therefore, in this Keevo Wallet review, we’d be talking about how they’re changing the way we see **hardware wallets**. Keevo is bringing forward a patent-pending 4-factor authentication system and secure MCU.

BNB Coin Market Analysis

BNB has a max supply of 165,116,760 coins worth around \$401.95 with a market volume of 1.6 billion dollars, whereas the market capitalization is 66.3 billion dollars at writing.

BNB Price Prediction

On the 1w timeframe, BNB was consolidating in a rectangle channel where the price action got rejected twice from the resistance level and currently going up from the support key level.

For any time, on-demand analysis on \$BNB or any other coin can join our [Telegram channel](#).

The Article will be Featured on Home as well as Markets Page.

IDOWALLET IS SET TO INTEGRATE WITH OTHER BLOCKCHAINS AS PUBLIC SALE GOES LIVE

IdoWallet is Set to Integrate with Other Blockchains as Public Sale Goes Live

February 16, 2022 / News, Press-Release

[Follow us on Google News](#)

Idowall team are delighted to announce a tremendous update on [IdoWallet](#), a Cardano based wallet that has successfully tested on Cardano API. IdoWallet will enable users to buy/trade Cardano tokens and other cryptocurrencies.

This is the last opportunity where you can buy WALL tokens before listing on exchanges next month.
